## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-11, 27-31, 36-41, 43-46, 48-51 and 53-55 are allowed over the prior art of record.

2. The following is an examiner's statement of reasons for allowance:

The prior art of record alone or in combination fails to teach or suggest:

in claim 1, "an information storage medium for use with a recording and/or reproducing apparatus, the information storage medium comprising: a user data area comprising a plurality of user data frames, each of the user data frames comprising corresponding sync data of a plurality of sync data; and an additional data area located before and/or after the user data area, and comprising at least two additional data frames, a first one of the additional data frames comprising first sync data, and a second one of the additional data frames comprising second sync data, the first sync data and the second sync data being different from the plurality of sync data of the user data frames, the first sync data and the second sync data enabling the apparatus to identify the additional data area from the user data area when the information storage medium is used with the apparatus; wherein: the first sync data comprises a first sync body and a first sync identification, the second sync data comprises a second sync body and a second sync identification, the first sync identification is different from the second sync identification, the information storage medium is a read-only information storage medium, and the additional data area makes the read-only information storage medium compatible with a recordable information storage medium." (the examiner notes

Art Unit: 2627

applicant's arguments regarding the term "frame" on page 21 of the remarks filed on 9/28/2009); and

in claim 38, "an information storage medium for use with a recording and/or reproducing apparatus, the information storage medium comprising: an additional data area comprising: a first additional data frame comprising first sync data; and a second additional data frame comprising second sync data; and a data area comprising a data frame comprising third sync data; wherein: the first sync data is different from the second sync data; the third sync data is different from the first sync data and the second sync data to enable the apparatus to identify the additional data area from the data area when the information storage medium is used with the apparatus; a size of the additional data area is an integer multiple of a size of the data frame; and the additional data area provides compatibility among information storage media having different formats for use with the apparatus; the data area does not comprise any data frame comprising the first sync data; and the data area does not comprise any data frame comprising the second sync data."

Claims 27, 41, 46 & 51 have similar allowable limitations as claim 1.

Claims 38-40, 43-45 & 48-50 have similar allowable limitations as claim 38.

Claims 2-11, 28-31, 36, 37 & 53-55 are dependent upon allowed base claims.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2627
